Filter First with Sloan

Safe drinking water for Michigan's schools

Ensure your school meets Filter First compliance with Sloan's trusted solutions. Our advanced bottle fillers and water coolers and NSF-61 faucets are designed to deliver safe, clean water for every student, every day. We understand the unique challenges you face—tight timelines, aging infrastructure, and the critical responsibility of protecting children's health. That's why Sloan provides Filter First-compliant solutions, supported by local Michigan representatives ready to assist you every step of the way.
